ABOUT US

NC is a company established with aim to provide aesthetic solution to infrastructure project. It is our privilege to come up with a end to end solution company for Engineering services. Our design quality standards, Economization & Timely deliverables is reflection of our business excellence.

NC brings a fresh approach to integrated Infrastructure with an innovative, dynamic, highly motivated and enthusiastic team of Engineers, Architects & Planners, who harness a great depth of industry experience and knowledge. We pride ourselves on staying informed of the latest industry thinking and trends through regular involvement in industry bodies, conferences and seminars. Our integrated team offer advice and solutions to Complete engineering Solutions.

Our integrated team offer advice and solutions to complete engineering solutions for designing rather than one item in isolation.

We are committed to follow engineering code of practice/standards with client's ultimate satisfaction. Our commitment with client is backed up by extensive technical knowledge and even after completion of project services to customer's requirements.

NC has established itself in Ahmedabad, Gujarat (India) in 2016 and proudly acclaims to provide the best services and can undertake the responsibility to design and manage the whole project.

WHY US !

NOOR delivers expertise and solutions across diverse range of infrastructural areas. Our engineering capabilities are grounded with innovation and superior project delivery. Our design quality standards, Economization, & Timely deliverables are a reflection of our business excellence.

Additionally, we have the skills to manage complex, multi-disciplinary projects. Often, these require unique talents - to coordinate other technical aspects with contractors during the various phases of project development and construction. Our in-house technological capabilities, including all the current industry software, are geared towards this end.

We are committed, energetic and agile; ensuring sustainable change is delivered in rapid, assured and cost effective manner,

We bring pragmatism to projects, blending theory and expertise with a deep understanding and experience of our specialist sectors.

In summary, we believe our commercial engineering approach and passion for delivering the highest levels of customer service sets us apart from other consultants and consistently delivers considerable added value to any project.

OUR VISION

To enjoy the technical, logical & engineering principles that reinforce our profession and applying them creatively to bridge the gap between concept to reality

We always believe in to satisfy the client's needs and serve them better and better.

We believe in the setting up the benchmark for the Working Projects

COMMITMENT TOWARDS CLIENT

NC has been providing full-service structural engineering solutions for clients. This includes architectural/engineering and multidisciplinary firms, NC delivers Quality, Efficiency and always meets budgetary requirements.

Share with us your objectives, your vision, time and budget and we will come back to you with the most efficient design and construction solutions available.

From the initial feasibility studies, through planning and development, project design and tender stage we will help you deliver a quality solution on time and in budget.

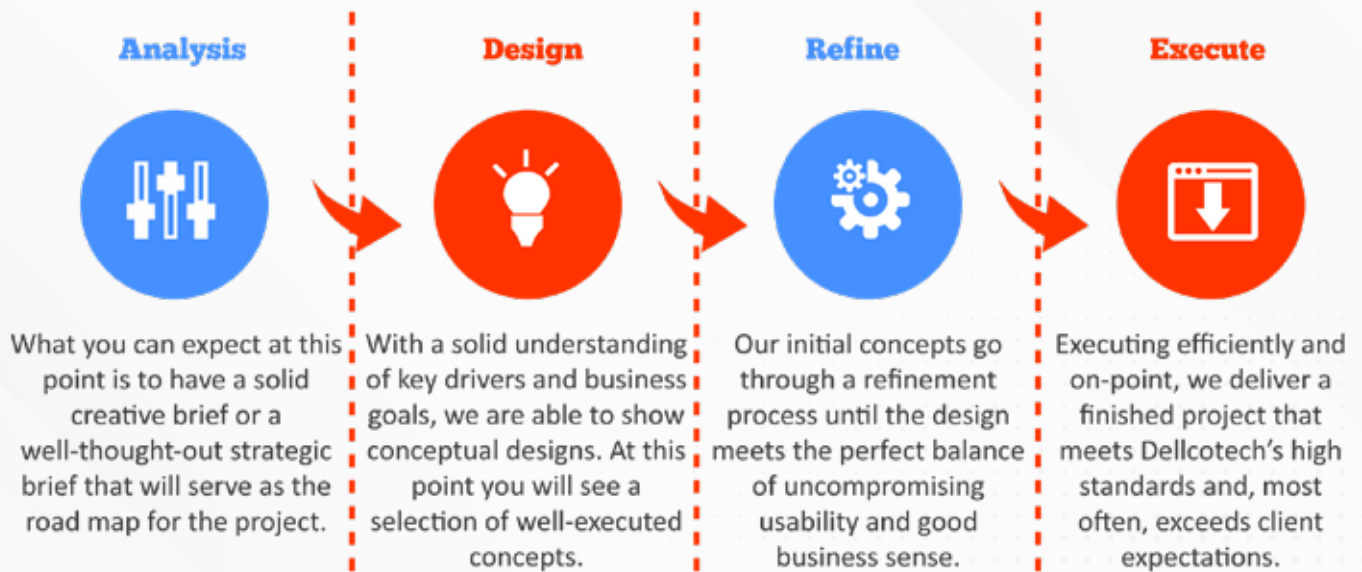

NC fits itself in listening to the client's objectives and project goals and then recommending the most efficient construction path and solution oriented assistance.

How we work

Our methodology focuses on ensuring that projects are properly designed before implementation begins, so that the end project minimizes risk and maximizing the value of technology solutions.
